The SESAUA 75<sup>th</sup> Anniversary Annual Meeting will be a highly exciting and informational meeting to urologists. Review of presentations of urologic abnormalities, the use of safe and cost-effect imaging modalities and operative management options remain essential in accurate differential diagnosis and disease management. Presentation and discussion of such investigations provide "cutting edge" updates for practicing clinicians and offer feedback on the practical applications to one's practice. The rich scientific program will include lectures, discussions and debates. A full program schedule will be available soon on the SESAUA website.

Program schedule and registration will be mailed and available online at [www.sesaua.org](http://www.sesaua.org) starting in December 2010!

To learn about exhibitor/sponsorship opportunities, please visit [www.sesaua.org](http://www.sesaua.org) or call the SESAUA office at (847) 969-0248.
